u just count the number of times each digit appear in the 9 sets of predictions then u can see. You ask this question simply shows that you never bother about the 9 sets of predictions and you thought you can get something out from this digits frequencies !!

Digits Frequencies are to lock the 4D bankers so that 4D bankers cannot play with our predictions.

Furthermore, you need well-ordered-graph to use the 9 sets of predictions !!

Dear dlas6295

Don't be too disappointed on this. You can go to our website and read the functions of Bet-graph and Well-Ordered Graph. They are very easy to understand and many of 4D players are now feel very handy about these two graphs.

We are not working on the prediction of 4D outcomes but the avoidance of 4D bankers !! So the 9 Interfering 4D-digits are NEVER meant for buying !!

The 9 Interfering 4D-digits are meant for 4D bankers so show the world how they cheat on 4D gambling.

4D is not a game of chance but a game of manipulation and cheating. As you can see in the outcomes of last Sunday for Singaporepools' 4D, Magnum and SportsTOTO are 6776, 8424 and 0880. Magnum was actually planning to use 2424 as the First prize rather than 8424. But it was too obvious, so finally Singaporepools decided to order Magnum 4D to use 8424 as First Prize.

In another words, the 9 Interfering 4D-digits are actually the First Prize for all the respective companies !! These 4D bankers are very frightened, annoying and frustrated to see our postings. But we are too good for them to counter-back, no matter what methods, lies they spread, we still can precisely see the coming First Prizes, in consecutive manner !!

So, if you do spend sometime in our forums, and spend some time thinking, you should grasp this predicting techniques !!

And if you wish to use other companies provided softwares, we have no comment on that, its your free will. But we don't sell any software, just two graphs and some explanations, that's all.

can you please kindly explain how to read your prediction chart ?

thanks

Re:6892

Posted by zhangq - 2009/04/01 10:40

They are very easy to see, the two graphs are just plotting of the past 20 consecutive First Prize.

But within Bet-graph, you have three supplement columns, and you should do some reading to understand them.

Furthermore, you also should do your homework : history of position picking of the Strange Sequence 7-6-5-4-4-3-3-2-2-0.

Re:Magnum 4D Prediction For You

Posted by zhangq - 2010/03/20 16:37

How many times do we have to tell you ??

Cannot cannot vcannot !!!!!

Why do you keep asking ??

So if you really wonder why we post, this is becoz we want to force Magnum 4D bankers to implement AVOIDANCE

Can you understand the word : avoidance ??

We don't mind what you think becoz nobody will buy these digits. They will just do avoidance.

Only you, who seem to have some problem in this.

Don't buy

Don't buy

Don't buy !!

The very same language from Smart4D : <http://www.smart4d.com.my/v2/index.php>.

After we repeated telling you Don't Buy, but you still insist to buy, why ??

Are you trebla ??

Then when we told you to make AVOIDANCE upon our Interfering 4D-digits, you seem to have huge problem of understanding the meaning of AVOIDANCE , WHY ??

Becoz you are 4D bankers, right ?? How do you feel when you have to make less from your business due to our more improved interference ??

Ha ha ha ha ha ha We enjoy you pain.

Don't pretend to be stupid, becoz your stupidity won't work to others and with our explanations, more will follow us and expose your cheating skill !!

Don't buy, ok ??
